Centool is not merely a well-known name in the field of High Quality Edge Tools. It is an actual symbol of a better product — backed by the facilities of a factory with the know-how for making a particular tool fit the needs of a particular job.

Centool Tools have users acceptance through on-the-job leadership for many years. This leadership has resulted in the continued demand for these tools by skilled mechanics on the basis of proven performance. Their excellent physical properties are uniform, correctly proportioned and correctly designed for balance.

To prove our confidence in *Centool* High Quality Edge Tools, we guarantee them to be free from defective workmanship of any kind and we will replace any tool which does not prove perfect.

Used by BRICKLAYERS • STONE MASONS • ELECTRICIANS
PLUMBERS • CARPENTERS • TRUCKMEN • AUTO MECHANICS
